Federal Communications Commission
Office of the Secretary

In re Applications of) MM Docket No. 92-33
Central Florida Educational)
Foundation, Inc., et al.) File No. BPED-881207MA
For Construction Permit for a New)
Noncommercial FM Station)

To: The Honorable Edward J. Kuhlmann
Administrative Law Judge

Petition for Leave to Amend

Mims Community Radio, Inc. ("Mims"), by its attorney,
hereby respectfully requests leave to amend its pending FCC Form
340 application in the above-referenced proceeding. In support
thereof, the following is shown:

1. This amendment is submitted pursuant to Paragraph 7 of
the Hearing Designation Order, DA 92-224, released March 10, 1992
in the above-referenced proceeding. While the HDO requested that
the subject RF amendment be filed within thirty days of the
release of the HDO, difficulties in coordination between
undersigned Counsel (who was retained by Mims to handle
prosecution of its application in the hearing proceeding) and
Mims' main contact person, Barbara Richmond (who is in Poland
doing missionary work) resulted in the slight delay. It is
respectfully submitted that, in light of the fact that the
Prehearing Conference in this proceeding is set for May 11, 1992
(and discovery and other major procedural dates have yet to be

[Handwritten signature]

DATE: 4/14/92

set), good cause exists for acceptance of the amendment.

2. The subject amendment consists of an engineering statement addressing the RF concerns regarding Mim's application which were expressed in the HDO at Paragraph 7. Specifically, the proffered amendment demonstrates Mim's compliance with the Commission's RF guidelines inasmuch as it delineates how the applicant shall protect individuals from RF exposure and why Mim's application should not be subject to further environmental processing.

3. In light of the attached amendment, it is respectfully requested that the Mass Media Bureau delete the contingent environmental issue specified against Mims.

4. Acceptance of the amendment will not result in any comparative advantage to Mims, no party to this proceeding will be unfairly prejudiced and the orderly conduct of this proceeding will not be disrupted. Therefore, good cause exists for acceptance of the subject amendment under the criteria delineated in Erwin O'Connor Broadcasting Co., 22 FCC 2d 140 (Rev. Bd. 1970).

Wherefore, based on the foregoing, it is respectfully requested that Mims's Petition be granted and the subject amendment accepted.

Respectfully submitted,
Mims Community Radio, Inc.

Federal Communications Commission
Office of the Secretary

Certificate of Amendment and Amendment

I, Mary Jo Looney, Secretary/Treasurer of Mims Community Radio, Inc., applicant for authority to construct a new FM station to operate on Channel 202C1 at Oak Hill, Florida (FCC File No. BPED-891127MD), hereby amend our pending application to include the following information:

Commission grant of the subject application would not have a significant environmental impact as defined by 47 C.F.R. Section 1.307. The transmitter site is located in a sparsely populated area with no pedestrian traffic and is not located in a sensitive area. Moreover, the transmitter facilities are surrounded by a secure, fenced structure located six feet from the base of the tower which prevents unauthorized access to the tower site. Consistent with "Evaluating Compliance with the FCC Specified Guideline for Human Exposure to Radiofrequency Radiation", in the event an engineer or authorized person is required to have access to the tower, then power to the antenna(s) will be reduced or turned off, as necessary, to prevent any danger from Radiofrequency Radiation.
